Doug White, Director, douglas.white@dpi.state.wi.us, 608-266-5198

The Student Services/Prevention and Wellness (SSPW) Team’s mission is to provide leadership for Wisconsin school-communities to enhance their capacity to educate and support all Wisconsin youth to reach their full potential as caring, academically successful, healthy, and responsible citizens. This is achieved primarily through technical assistance, staff development, grants, and collaborative work with state and local partners.

The SSPW Team is dedicated to working with school districts, the 12 respective cooperative educational service agencies (CESAs), and others throughout the state to support comprehensive school health programs that help students in their social, personal, health, educational, and career development. To assist in the development and implementation of comprehensive school health programs, this team provides service to all 426 Wisconsin school districts in four basic arenas:

- ◆ **Grants**
The SSPW Team administers over \$20 million state and federal dollars on an entitlement or competitive basis.
- ◆ **Program- and discipline-specific training and professional development**
The SSPW Team conducts statewide conferences, regional workshops, and various program- and discipline-specific training events throughout the year.
- ◆ **Consultation**
The SSPW Team provides technical assistance to educators, parents, and others on issues related to the team. This technical assistance is provided via phone service, E-mail correspondence, and mail. Providing technical assistance is a major priority for the team, and responding promptly to requests is key to achieving quality service.
- ◆ **Resource materials**
The SSPW Team provides a variety of free resources through printed publications, internet, and multi-media (CD-Rom, video). These resources address relevant topics within the disciplines and programs this team administers. (See insert for resource listing and order form)

- ◆ **AIDS/HIV/STDs**
Emily Holder, emily.holder@dpi.state.wi.us, 608-267-9170
